

FREDERICK COUNTY REPUBLICAN COMMITTEE

May 1, 2018

Senator Jill Vogel
45 North Hill Drive, Suite 100
Warrenton, VA 20186

Dear Sen. Vogel,

First of all, thank you for your service to our conservative cause. It is crucial that you and your compatriots in Richmond stand fast against the expansion of Medicaid in our Commonwealth. We note that the Frederick County Board of Supervisors passed a resolution this month in opposition to Medicaid expansion in the Commonwealth of Virginia. They have documented a strong position that the financial burden on our local government is unsustainable should this be passed.

There are many reasons to resist the continued overreach and expansion of the federal government into our nation's health care. The Medicaid program was intended to provide healthcare to the most vulnerable and the elderly, not the healthy able-bodied adults.

Other states have rejected this expansion, and so should the Commonwealth of Virginia. They understand the need to avoid this Trojan horse. It makes no sense to worsen access to healthcare by the needy at a tremendously increased expense to the taxpayers. Expanding a broken Medicaid system is not the answer.

Please resist Medicaid expansion and support every effort to repeal Obama care. Only then can we begin to use the creativity of this nation to repair the abomination of Obamacare. We do not want Obamacaid. By opposing this you remain in good company.

Respectfully,

Tim Stowe, Chairman
Frederick County Republican Committee
